

PLENARY LECTURES

Date	Time	Plenary Speaker	Title
Monday Aug. 21	10:15-11:00	Professor Shirong Liu	China's Research in Ecology - Interface between Science and Policy-Making
	11:00-11:45	Professor Gretchen C. Daily	The Science and Practice of Valuing Nature in Decisions
	11:45-12:30	Professor Hideaki Shibata	Changing Winter Climate Alter Nitrogen Biogeochemistry in Northern Forest Ecosystems
Tuesday Aug. 22	08:30-09:15	Professor William Sutherland	Collating the Global Evidence and Using It to Make Local Conservation Decisions
	09:15-10:00	Professor Anikó Kovács-Hostyánszki	Bee or Not to Be? – Importance of Wild Bees for Well-Being and the Threats of Land Use Change
Wednesday Aug. 23	08:30-09:15	Professor William Bond	Ecology on the Light Side: Explorations of Non-Forested Ecosystems
	09:15-10:00	Professor James S. Clark	Generative Models for Ecological Forecasting: How Entire Communities Will Respond to Climate Change
Thursday Aug. 24	08:30-09:15	Professor Kai Ming Adam Chan	Leveraging Values for Societal Transformations Towards Sustainability: Some Bold Propositions
	09:15-10:00	Professor Norma Salinas	Understanding Tropical Forests and Climate Change: a Journey Along an Elevation Transect in the Amazon and Andes
Friday Aug. 25	08:30-09:15	Professor Isabel Hilton	Ecological Civilisation: a Map for the Future?
	09:15-10:00	Professor Zhiyun Ouyang	Ecosystem Pattern, Services, Challenges and Governance in China
	10:20-11:05	Professor Bastiaan Ibelings	From Vials to Lakes: on the Role of Environmental Complexity for Eco-Evolutionary Feedbacks in Microbial Communities
